

3 POWER Points:

Develop your creativity:

- ◆ Design and create a model of a rainforest of your choice.
- ◆ Design the ideal habitat for a rainforest animal of your choice.
- ◆ Collage or make a model of an animal that lives in the rainforest.

Due in 21st October 2016

2 POWER Points:

Research/geographical skills:

- ◆ Find out about different animals that live in the rainforest. Present this information however you like!
- ◆ Find out how far it is from England to rainforests of your choice.
- ◆ Create a poster showing what happens after deforestation. Where do the trees go? What happens to the land left?

Due in 16th September 2016

This half term's POWER Project is:

Rainforests

Choose projects to achieve your

6 POWER Points.

You can add with your own ideas too! Tick off what you have completed to achieve your points.

1 POWER Points:

Mathematical skills:

- ◆ Create a bar chart showing how many different animals live in a rainforest of your choice.
- ◆ Create a line graph showing the rates of deforestation over time.
- ◆ Create a symmetrical butterfly that you would find in the rainforest and draw the mirror line.

Due in 7th October 2016

3 POWER Point:

Writing Skills

- ◆ Write a poem about rainforests.
- ◆ Write a postcard you've sent from the rainforest to your family at home describing your surroundings and daily life.
- ◆ Create a leaflet persuading people to donate money to help save the rainforests.

Due in 30th September 2016
