

Name _____

Level 1a

Using and Applying Maths	Number	Calculating
I can talk about how I solved a problem or puzzle	I can read and write numbers beyond 20 and begin to recognise a pattern as I do so.	I know by heart doubles to ten.
I can make and describe a pattern of shapes or numbers and tell you how it would continue	I can partition 2 digit numbers up to 20.	I know my addition number bonds to ten.
	I can work out a missing number from a sequence of numbers to 30.	I can add 2 coins together to find a total up to 20p.
	I can add on or back in 2's to twenty starting at 0 or 1.	I can solve problems involving 1p 2p 5p and 10p coins.
	I can recognize zero as 0 in stories and rhymes when counting and ordering.	I can work out how many more I need to add to another number to make twenty.
	I can put 2 numbers in order and say which is smaller and which is larger.	I can work out how many to takeaway from a number to leave me with a given number.
	Shape, space and measure	Handling Data
	I can recognise and name cubes, cylinders, circles, triangles, squares and rectangles	I can use objects/pictures to make a block graph
	I can describe shapes talking about the number of corners and sides	
	I can follow and give instructions to move along a route.	
	I can use objects and equipment to make measurements and compare objects	
	I can read the time to the hour and I am beginning to know the half hour
